Introduction

The rules for each Cup or Trophy awarded each year by the Rock Sailing and Water Ski Club are contained in these instructions, as agreed by the Sailing Committee. Water Ski events are not covered in this document.

Scottish Handicap: For some years, the members of The Club have used the term, "Scottish Handicap" which has had different meanings for different people. It is usually used to mean a "Staggered Start" to a race where a large, mixed fleet is racing – allowing groups of craft to start at slightly different times to avoid overcrowding on the start line. The ensuing race follows the RYA "Average Lap Time Racing" system in which slower classes may be finished early to avoid extending the race time unnecessarily, and ensuring that all competitors sail in approximately the same conditions.

Races with and without Cups or Trophies: Not all races or series on the annual calendar of the Club have cups or trophies associated with them. Some may (or may not) have a prize which may (or may not) count towards overall or annual cups. See later text for details.

Terminology: The term "helm" refers to male or female helms.

Temporary membership is available for certain non-open races for a fee. It should be noted that temporary members are not eligible to win cups, trophies or prizes.

Members of CEYS (Camel Estuary Youth Sailing) are considered as associate members of the RSWSC and may enter races – and thus compete for Cups and Trophies - which are open or listed as being for Associate Members. In 2009, CEYS Members are not expected to pay race entry fees.

Racing Sailing Area in the Camel Estuary: The Padstow Harbour-Master has made an adjustment to the area where sail racing may take place which is illustrated on the Estuary Map for Dinghy Sailors (2008) available on the Club website or from the Club Office. Helms are reminded to exercise constant vigilance for all users of the Camel Estuary wherever they happen to be, and to observe rights of way on the water. Please note that the ferry always has right of way.

The racing calendar in any given year will depend on tidal regimes and when a number of public holidays occur. Thus, in 2009, the timing of certain races or series may differ from previous or later years.

For up-to-date information, please consult the 2009 programme, the RSWSC Website at www.rswsc.co.uk, and the latest club Sailing Newsletter.

Cup and Trophy Rules

These Cup and Trophy Rules should be read with **The (ISAF/RYA) Racing Rules of Sailing 2005-2008 including the RYA Prescriptions** for general guidance, and the **Portsmouth Yardstick Scheme** (2007 or later), but the RSWSC Sailing Committee will rule on where variations will be used. In addition, the **Sailing Instructions** of the Club must be observed for the awards to be valid.

- Types of racing:** These are based on RYA Rules and the Portsmouth Yardstick Scheme (2007 or later):
- Level Racing not Timed (for single class races)
 - RYA Average Lap Time Racing (for mixed fleets)
 - Pursuit Races (RYA Pursuit Numbers for 2 hours)
- Sign-on & Sign-off:** Following registration and acceptance of an entry, it is normally not required to sign-on. However, it is mandatory to sign-off for each race within one hour of the last finisher crossing the line. Failure to do so will disqualify a participant. Sign-off is particularly important where large fleets are involved, to account for all participants.
- Qualifying craft:** Any craft that is to be considered for any Cups or Trophies must be of a type recognised by the RYA. Where the craft is to compete in mixed fleets (Average lap time racing) or in Pursuit Races, it is required to have a Portsmouth Yardstick Number (handicap). The Sailing Committee has the right to assign a Trial or Club PY number to a non-standard boat. Certain Development Classes may be assigned a Club PY depending on age as agreed by the relevant class associations, but such numbers must be ratified by the Sailing Committee.
- Advertising:** Particular attention is drawn to the Rules regarding advertising covered under the RYA Racing Rules of Sailing Part 6, and ISAF Regulation 20. Where a craft does not conform to the Rules and Regulations in this matter, it may be disqualified. Where doubt exists, it is the responsibility of the competitor to clear the matter with the Race Officer and Sailing Committee *before* racing.
- Qualifying races:** A race is a scheduled event in the Club sailing programme which takes place and in which there are a minimum of 3 (three) boats which cross the start line. Where there are fewer starters, or where the race is abandoned or cancelled, the race will be considered void. For an individual race to count towards a series, it must not be void.
- Nos. of discards:**
- | | | |
|-----------|----------------------------|------------|
| 6 to 9 | qualifying races in series | 2 discards |
| 3, 4 or 5 | qualifying races in series | 1 discard |
| 2 | qualifying races in series | 0 discards |
- However, in both Peter Keeling Week and Camel Week, there will be only one discard. Other exceptions at the discretion of the Sailing Committee.
- Ties:** Ties will be decided as per the Sailing Instructions.
- Craft types:** Monohulls (excluding Shrimpers); multihulls (usually but not exclusively catamarans or twin hulled craft); and Shrimpers. Non-standard craft may be assigned to a category by the Sailing Committee.
- Age qualification:** Throughout these rules, all reference to age qualification relates to the person's age on 1st September of the current year.
- Handling of Awards:** Cups or Trophies won may only be taken home by Full or Family or Associate Members of the Club. This means that an award won by an entrant in an Open Event who is not a Full or Family or Associate Member of the Club, will be presented the Award, but it will be kept in the Trophy Cabinet at the Club and may not be taken home. Winners of awards are expected to have their name(s) engraved on the award in the same style as earlier years, at their own expense. For awards won by non-members, the Club will arrange engraving, at the Club's expense. All Cups and Trophies must be returned to the Club well in advance of the race(s) for which they were given the previous year.
- Distribution of Trophies:** The distribution of trophies and prizes will be as follows:
- | | |
|------------------|-----------------------------------|
| 3 to 5 entries | 1st place only |
| 6 to 10 entries | 1st and 2nd places |
| 11 to 15 entries | 1st, 2nd and 3rd places |
| Over 15 entries | Square root number of entries + 1 |

This race could perhaps be known as The Hubbub since the OED defines hubbub as '*A confused noise of a crowd shouting or talking; the shouting of a war cry; noisy turmoil; a row*' which aptly describes a collective of Shrimper owners.

CAMEL WEEK

Camel Week is the major sailing event of the Rock Sailing and Water Ski Calendar, usually occurring at the most appropriate tidal regime in mid-August, namely during the Neap Tides period. It normally attracts a large, mixed fleet. There are many awards made during the week and thus the listing of all cups, trophies and other awards is presented by category below, for ease of reference.

The Week provides a series of open handicap events (except Shrimpers), over 6 days, weather permitting. Because of the size of the combined fleet, and to achieve manageable numbers for each start, the ultra-fast Monohulls start together with the Multihulls (PY 0 – 1010); the rest of the Monohull fleet is separated into fast (PY 1011 – 1230) and slow (PY 1231 – 1649) groups; and Shrimpers sail separate courses and have their own Race Officer. See the Sailing Instructions for multiple starts to the same race. Depending on conditions, racing may take place in the estuary or outside in the Padstow/Hayle Bay off Polzeath at the discretion of the Race Officer.
