DECEMBER 2019

After a mainly, very pleasant summer weather wise, I'm sure some of you are wishing you had your boats at home. In between the high winds there has been some lovely calm water this autumn although the accompanying rain has not always made it particularly inviting for skiing. We hope that the Christmas holidays will provide dryer conditions for those hardy skiers who are in Rock.

Most yellow forms were filled in fully last year so many thanks. Please do the same this year to make it quick for staff to issue the ski numbers. They are included in your membership fee and will be available from the Club bar as usual at the beginning of the season. If you need a kill cord sticker and one is not included in your ski wallet, we have spares so please ask at the bar.

Over the winter the crew room will be having some renovations and rearranging in order to make it a more user friendly space. Ski equipment will still be stored there and readily available on completion which will hopefully be by Easter. However, in order for the work to take place, the ski equipment will be taken away temporarily. Any Club members who intend to ski before Easter and would be expecting to borrow equipment, please be aware that it may not be available.

The Fly Navy competitions are our one event in the year where skiers/ wakeboarders/boat drivers can get together and use their skills in a slightly different way as part of a team on familiar or not so familiar equipment. This year we were unusually favoured with sunshine and calm water on our planned day! As always it was held in good spirit and the standard of skiing for the juniors was impressive – but anyone entering always stands a chance of winning as anything can happen- the same as in the Fly Navy Cup. So please join us next year.

Make a note of the date - FLY NAVY 2020.

Saturday 29th August

with a reserve date - **Sunday 30th**
